 11 Mar, 2002  <https://github.com/tandeljanak>

I am strongly determine to make my career as FRONTEND developer. So that as a fresher I want to enhance my skills not only as a technical person but also create my personality as a strong collaborative person. I am also quick learner which help me to get improvement at my work place as well my quality as an honest person help me to collaborate with my team. I have completed java backend development course and pursuing full stack- stack development course.
